Message from the Chair

Michael Funston, Chair

The HADIA Foundation, a registered Australian charity, exists to help improve the lives of people in Afghanistan by providing humanitarian aid in the areas of health, education, emergency relief, and empowerment. We raise funds, develop partnerships with philanthropic and other organisations, and oversee the distribution of services and resources in Afghanistan. This work has continued during Financial Year 2025-26, our tenth year of operation.

In conjunction with UK-based charity, **Charity Right**, we again provided school lunches to girls attending a primary school in Nangarhar Province during the school year. As in 2024-25, the program resulted in measurable improvements to the girls' school attendance and academic performance, as well as their health outcomes. Another ongoing education initiative commenced last year was a partnership with **UNSW Australia** under which a young woman in Afghanistan was given a scholarship to undertake postgraduate studies remotely. The student in question has been making excellent progress and is expected to complete her studies in 2027.

The Foundation also continued to advance various of its long-established projects, including our mobile library, our multivitamins distribution project, and our cataract and other surgeries projects. Read the summaries and case studies which follow for more about these great, practical initiatives. The provision of emergency relief remains a key focus for the Foundation. 2025-26 initiatives included a major fundraiser for the victims of the devastating Kunar Province earthquake held at Sydney's Granville Town Hall on 13 September 2025.

As detailed in the report, HADIA coordinated with other agencies to distribute food to 11,775 people, and tents to 60 families, impacted by the Kunar earthquake and other emergencies. Our food program includes 1,100 meat packages to desperately poor families during *Eid-ul-Adha*. Overall, we assisted over 77,000 people in Afghanistan during the year.

I would like to thank our dedicated and courageous staff and volunteers in Afghanistan, together with our volunteers and my fellow directors here in Australia, for their work over the reporting period, and since. Particular thanks to our Executive Director, Mr. Mahir Momand, whose energy, determination and desire to make a difference are central to HADIA's effectiveness.

Finally, I wish to express the Foundation's sincere gratitude to our institutional and individual donors for their ongoing trust and financial support. It is only through your generosity that we can keep helping and empowering vulnerable people in Afghanistan. So, please continue to maintain your support in the months and years ahead.

Michael Funston

Michael Funston
Chair – HADIA Foundation

Update

Mahir Momand, GAICD
Founder & Exec Director

Fiscal Year 2025–2026 was a significant year for HADIA Foundation as we celebrated **10 years of humanitarian service** to vulnerable communities across Afghanistan. Over the past decade, the Foundation has grown steadily in both reach and impact, delivering assistance to people facing poverty, food insecurity, limited access to healthcare, and barriers to education. During the year, we also launched our **new website**, providing a stronger platform to engage supporters, share impact stories, and connect donors with the communities whose lives they help transform.

Throughout the year, HADIA Foundation remained focused on its core areas of **education**, **healthcare**, **emergency relief**, and **economic empowerment**. While Afghanistan continued to face significant social and economic challenges, our teams worked tirelessly to ensure that support reached some of the country's most vulnerable individuals and families.

A major focus during the year was our response to the devastating **Kunar earthquake in August 2025**, HADIA Foundation provided emergency food assistance and essential relief supplies to affected communities, including to families living in remote and difficult-to-access areas. This response reflected our commitment to ensuring that humanitarian assistance reaches those most in need, regardless of geography or circumstance.

Food insecurity remained one of the most pressing challenges facing Afghan families. Through our monthly food assistance program, we supported vulnerable households, particularly female-headed families, widows, and those living in extreme poverty. During Ramadan, we partnered with local bakeries to provide fresh bread to families, helping many households continue to put food on the table during the holy month.

Education remained a cornerstone of our mission. Our Mobile Library Project brought books and learning opportunities to children in underserved communities, helping foster a culture of learning and literacy. We also continued supporting educational initiatives that encourage school attendance and create opportunities for children, particularly girls, through our school meals for girls project.

In healthcare provisions, this year HADIA Foundation supported burn and trauma surgeries for children, cataract operations that restored eyesight, and specialist procedures for patients living with serious medical conditions who would otherwise have little or no access to treatment. In addition, our clean water projects delivered lasting benefits to remote communities by improving availability of safe drinking water, reducing waterborne illnesses, and easing the burden on children who previously travelled long distances to collect water for their families.

None of these achievements would have been possible without the generosity of our donors, partners, volunteers, and dedicated staff in both Afghanistan and Australia. Special thanks to our partners **Charity Right, SWAN, Global Aid Foundation and HFA**. As we enter our second decade of service, we remain committed to building stronger communities, responding to humanitarian need, and creating lasting positive change for the people of Afghanistan.

Yours truly,

Mahir Momand

Year in review

Performance Summary

+77,866

Individuals were assisted during financial year 2026.

Projects

A total of **8 projects** were undertaken including emergency aid, Eid-ul-Adha meat packages, our school meals project, mobile library, multivitamins, eyesight and other surgeries, water well and prosthetic hands.

Expenses

With our moto of small costs – big outcomes, nearly all donated amounts are spent in implementing projects. On average, it cost only $2.5 to provide help to each beneficiary.

$298,224

Total expenses to run 8 projects during financial year 2026.

+12

A total of 8 paid staff and 4 volunteers, all based in Afghanistan.

About us

The Humanitarian Assistance for Driving International Action (HADIA) Foundation is a non-governmental, non-political charity founded in Australia by a group of Afghan and Australian professionals. HADIA Foundation runs humanitarian programs in Afghanistan.

The Foundation is registered with the Australian Charities and Not-for-Profits Commission (ACNC) as a charity with Deductible Gift Recipient (DGR) status.

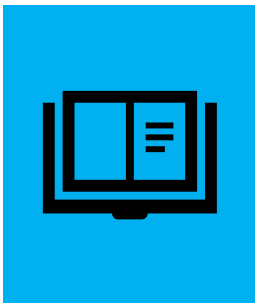

Our **Vision** is to help create self-sustaining, healthy and vibrant communities in Afghanistan

Our **mission** is to improve the lives of many people living in Afghanistan by providing humanitarian aid in the areas of health, education, emergency relief and empowerment.

> Our motto is to deliver big outcomes with little costs

Our work

Our programs are designed to meaningfully improve the quality of life for people in need and inspire hope for a brighter tomorrow**. HADIA Foundation provides humanitarian assistance in the areas of:**

Education

Under the Education program, HADIA Foundation runs Afghanistan's only **mobile library** for children providing books to girls and boys across rural and remote Afghanistan. **Our school meals project provides meals for girls of primary school age in Afghanistan.**

Health

As part of our Health program, we provide **multivitamins** to women and children across Afghanistan, particularly in rural and remote areas where malnutrition is a major issue. We also provide **clean drinking water** by digging wells, and undertake **cataract and other specialist surgeries**.

Emergency Relief

This program covers providing **food packages** and tents to vulnerable victims of natural disasters such as earthquakes and floods. Under the emergency relief program, we also provide **winter clothing and shoes** in Kabul prior to the arrival of the winter season.

Empowerment

HADIA Foundation's core objective is to empower its beneficiaries to become self-reliant. In addition to the health, education and emergency relief programs that are all designed to enhance self-sustainability, we provide **non-interest loans** and make **prosthetic hands** available to people who have lost hands due to war.

How we work

Our operating model

Sustainable Development Goals

Our humanitarian work is based on the United Nations' Sustainable Development Goals (SDGs). SDGs are a collection of 17 goals that focus on systematic transformation of our world for the better. At HADIA Foundation, we focus on Goal 1 – **No Poverty**, Goal 2 – **Zero Hunger**, Goal 3 – **Good Health and Wellbeing**, Goal 4 – **Quality Education**, Goal 6 – **Clean Water** and Goal 8 – **Decent Work and Economic Growth**.

Use of Volunteers

The Foundation recognises that Afghanistan, especially in rural areas, is struggling with extremely low literacy rates, poor health, lack of infrastructure and economic weakness. The Australian operation provides fundraising, strategy and direction to volunteers and workers on the ground in Afghanistan. In Australia we communicate with donors, raise funds, hold meetings and manage compliance aspects. Charitable works are not undertaken in Australia, and all activities performed in Australia are undertaken on a volunteer basis. That is, directors and Australian staff do not get paid. All funds raised go towards covering the costs of our Afghanistan operations.

Big Outcomes with Little Costs

Through our generous partner organisations (listed on p. 21), the Foundation obtains many of the resources it distributes in Afghanistan – including library books, multivitamins and prosthetic hands – free of charge. Shipping and distribution are our only costs. Where this is not possible, we buy from local suppliers in Afghanistan. To keep costs minimal, we operate from a small shop which is converted into an office in Afghanistan.

Safety and Security of Our People and Beneficiaries

The Foundation takes very seriously its obligation to ensure that work undertaken demonstrates care and responsibility for the wellbeing of its staff, volunteers and the vulnerable people it serves. To this end we have implemented policies across the Australian and Afghan operations which cover: • Risk management • Child protection • Equal opportunity and anti-discrimination • Anti Sexual harassment • Safety and incident reporting • Complaints management • Transparency and accountability • Organisational governance, and more copies of the above policies are available on request by contacting info@hadiafoundation.org.

Introducing The Team

Our Founder and Executive Board Director Mahir Momand MBA, M.Com, GAICD

As a refugee child, our founder Mahir Momand was a beneficiary of one of the makeshift schools that was built to educate Afghan children. The schools did not have any buildings or classrooms, with children sitting on the ground under open skies to get an education hoping for a brighter future. Books printed in black and white included lessons in literacy employing pictures and examples of guns and bullets. Even so, Mahir obtained tertiary education and started working and later founded HADIA Foundation to give colourful books to children that teach peace, coexistence and self-reliance. It was upon this idea that the HADIA Foundation was established in 2016. Mahir is of the view that educated and healthy people can help bring and stability to Afghanistan.

Mahir is an internationally-recognised development sector expert with extensive international experience in Canada, Australia and Afghanistan. He has previously worked for the United Nations, the World Bank and served as a senior Financial Advisor to the Minister of Labor and Social Affairs of the Government of Afghanistan. Mahir grew up in a large and hardworking family. He arrived in Australia as a refugee, with a strong passion for improving the daily lives of those still suffering in his war-torn home country. Through his established network of professionals in Afghanistan, Mahir has been able to grow the Foundation with a significant amount of volunteer and community support. **Mahir sits on the HADIA Foundation.**

Meet Our Board of Directors

Michael Funston
Chair

Mr. Funston is an experienced former lawyer and manager. Now retired, his previous roles included that of Senior Lawyer and Manager at GRC Solutions; Senior Lawyer with the Australian Securities and Investments Commission; and, Coordinator of the then Consumer Credit Legal Centre (NSW) Inc. Michael has expertise in areas including corporate governance, charities law, and community management and regulation. His qualifications include LLB, LLM and a Master of Arts degree.

Louise Petschler
Non-Executive Director

Ms. Petschler has extensive experience in public policy, government, advocacy and executive roles. She is currently General Manager, Education & Policy Leadership at the Australian Institute of Company Directors. Previously Louise was CEO of the Customer Owned Banking Association, representing mutual banking institutions. She has also worked for consumer rights group, Choice, and government. Louise is a member of Chief Executive Women (CEW).

Dr. Bilquis Ghani
Non-Executive Director

Born in Afghanistan, Dr Bilquis Ghani is currently ~~a L~~ecturer in Arts at Canberra University. Her previous roles have included Head of Inclusion at the Sydney Opera House, and working with University of Technology Sydney's Centre for Social Justice and Inclusion. Bilquis's social justice background spans beyond formal institutions and forms an integral part of her life. She is co-founder and lead for *Hunar Symposia*, a collective of academics and artists creating spaces of discourse and collaboration between practice and theory. Bilquis's PhD employed a hermeneutic phenomenological approach to understand how cultural products can be deployed to reconceptualize gender and identity in conflict zones, namely, Kabul, Afghanistan.

Lydia Garrett
Non-Executive Director

Lydia is a social impact professional with experience working across the not-for-profit, government, and private sectors to address complex social challenges. In her role at Igniting Change, she leads initiatives that amplify lived experience and foster cross-sector collaboration to drive meaningful, community-led change. Originally from the United Kingdom and now based in Australia, Lydia brings an international perspective and a strong commitment to equity and inclusion. She is passionate about ensuring organisations remain accountable to the communities they serve and is dedicated to advancing opportunities for people experiencing disadvantage, aligning closely with the mission of the HADIA Foundation.

Projects FY 26

Education

Mobile Library

The Foundation's mobile library was set up in 2016 to promote the culture of book reading amongst Afghan children and youth.

Initially, utilising tricycle motorbikes, the library now is a minivan. It travels the streets of Afghanistan's villages and suburbs playing its 'ice-cream van' like tune which was composed for the library by some of Afghanistan's best singers and composers. Kids hear the mobile library tune inside their homes, come out and get their free books. The library returns approximately two weeks later to collect old books and swap with new ones.

Books are also loaned to informal schools which would otherwise lack resources. So far, we have provided books to more than **365,696 children**, **54% of whom are girls**, mainly in the rural areas of Afghanistan. This includes distribution of books to 56,073 children during the financial year 2026.

Given the Taliban's ban on post-primary education for girls, our library gives hope to Afghan girls by constantly supplying them books to continue reading.

Further, understanding that hungry bellies make learning difficult, HADIA Foundation has partnered with Charity Right and provided **191,872 meals to 814 female students, 55 teachers and 6 kitchen staff** from July 2025 to June 2026 in a primary girls school in rural Afghanistan.

Figures

56,073	54%	365,696	35
Children assisted in FY 2026	Recipients are girls	Children assisted since inception	Districts Assisted since inception

Projects FY 26

Health

Eyesight Surgeries and Multivitamins

During the FY 26, the focus of our Health program was on undertaking eyesight recovery surgeries, cancer/burn surgeries and providing multivitamins to women and children across Afghanistan. We also built one community water station.

Thanks to Global Aid Foundation and our USA based partner, Vitamin Angels, this finanical year we undertook **42 eyesight recovery surgeries, 20 burnt and outer body cancer surgeries,** and we received a shipment of multivitamins containing a range of most needed multivitamin for distribution across a diverse range of provinces in Afghanistan.

The multivitamins help children and pregnant women who lack nutritious food in the current dire economic situation in Afghanistan. The shipment contained multivitamins for nearly 2,000 pregnant women and 5,200 children, including chewable Albendazole tablets, and Vitamin A for children of 6-11 months and 12-59 months.

During the year, a total of **8,790 women and children** received multivitamins which partly included the multivitamin from the previous shipment. The distribution process will continue in 2027.

Figures

8,790

and children have received multivitamins since inception

560
People
Received eyesight including 20 burn surgeries since inception

Projects FY 26

Emergency Relief

Emergency Food Aid

Under this project, the Foundation distributed basic food items such as flour, rice, beans, lentils, cooking oil, sugar and baby milk powder to **11,775 people in FY26**. Also, 60 families received tents, helping a total of 480 people.

Some of the beneficiaries included women-led families who do not have a male support. The need of these families was acute because the Taliban have stopped many women, some of whom were the prime breadwinners for their families, from working.

The project has had tremendous **impact** on the lives of beneficiaries, providing emergency relief against hunger to the most vulnerable families (including young children, widowed women, and the elderly), and preventing many families from resorting to begging.

Eid-ul-Adha - Meat Distribution

During 2026, HADIA Foundation received donations from **SWAN** and **Humanity for All through Global Aid Foundation**, as well as a number of Australia-based donors who directed their Eid donations to go to support people in Afghanistan who are doing it tough. This support allowed the HADIA Foundation to distribute meat packages to **1,100** families, mostly in the central Kabul and eastern Nangrahar provinces, during the June 2026 Eid-ul-Adha period.

Figures

11,775
People
Benefited from the food packages distributed in FY 26

1,100

Received Eid ul Adha meat packages in June 26

61,190
People
Benefited from the food packages distributed since inception

10,985
Families
Have benefited by Food and Eid meat packages and tents since inception.

Projects FY 26

Empowerment

Prosthetic Hands

Since 2016 the Foundation has been fitting free prosthetic hands to land-mine victims across Afghanistan. Sadly, there are many individuals with disabilities across Afghanistan due to landmine explosions and war.

With the support of the US-based **Ellen Meadow Foundation** and Australia's **Helping Hands**, HADIA has secured hundreds of prosthetic hands. Our volunteer doctors fit these prosthetics and train recipients in their use. Work is underway to get 3D printed hands made in Australia to be fitted to people whose hands have been measured in advance.

The prosthetics help beneficiaries become self-reliant and rejoin the workforce. During FY 26, only 2 prosthetic hands were fitted due to the Foundation's focus on provision of emergency food aid program. The two hands fitted brings the total to 524 beneficiaries since our prosthetic hands work began.

Non-interest Microloans

In Afghanistan, aspiring business owners often do not have access to common financial products. The Foundation previously provided no-interest loans to five small business owners seeking to empower these individuals to become self-reliant and no longer dependent on charity. During 2026, 100% of the loans provided were written off in light of the impact on small business of the political changes in Afghanistan in recent years.

Figures

524
People
Have received prosthetic hands since inception (i.e. 2016)

2
People
Received prosthetic hands during FY 26

75%
People
Who received prosthetics have returned to work

Statistics

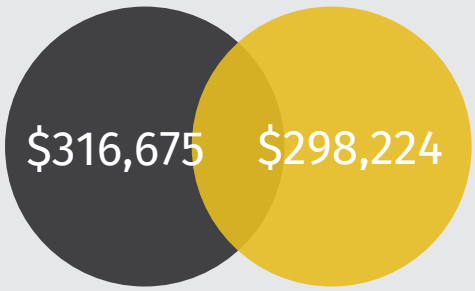

Financial Analytics

Overview
(FY 26)

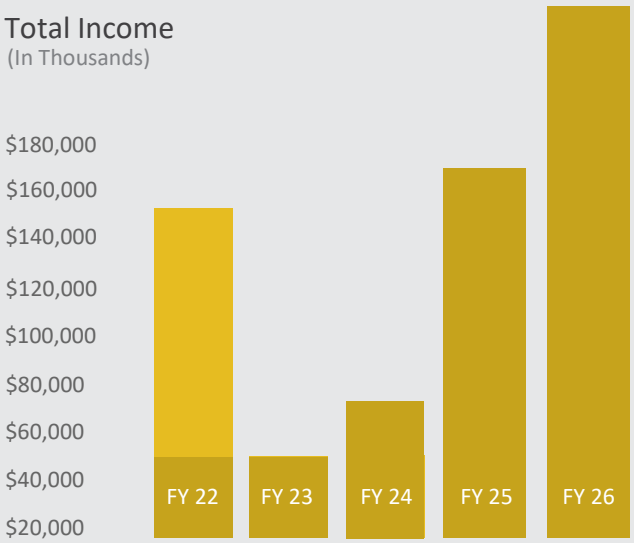

During financial year 2026 the average amount of monthly expenses sat at almost $24,852. A total of $316,675 was raised during the year which is a record high for HADIA Foundation.

Income and Expenses
(FY 26)

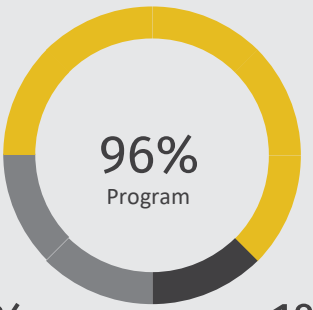

Total Income
(In Thousands)

Efficiency Statistics

The absolute majority of funds raised go towards program costs. During financial year 26 the amount of total expenses spent on program costs was 96%. Operating costs were at 4% and fundraising costs was almost less 1%. During the year 68 donors (last year 24) individual donors provide $316,675 (last year $187,800) which is an average of $4,657 per donor.

Operating

1%
Fundraising

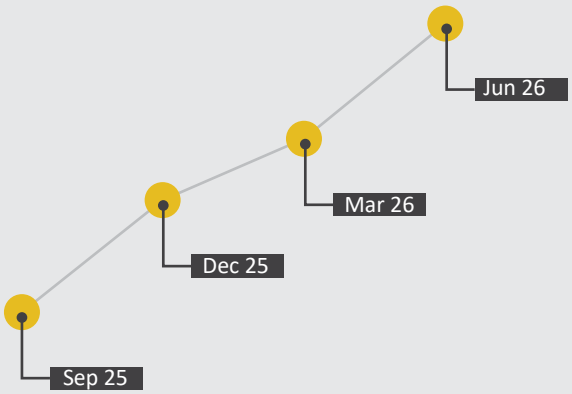

Donation Sources

68
Individual Donors

Income Growth

FY 26

Unlike the previous financial years the amount of financial donations grew for HADIA Foundation. The absolute majority of the new growth has come from the addition of Charity Right as a new donor has increased the value of donations due to the School Meals project.

Case Studies

Beyond the Road: Reaching Families After the Afghanistan Kunar Province Earthquake

At HADIA Foundation, one of our key programs is Emergency Aid. When the earthquake struck Kunar during the year, families in remote communities faced an immediate and overwhelming challenge: essential supplies had to reach people whose homes and livelihoods had been devastated, including communities far from accessible roads.

HADIA Foundation responded with emergency assistance, distributing both food and non-food items to people in need. The response extended beyond locations that could be reached easily by vehicle. In some of the most difficult-to-reach areas, there was no usable motor-vehicle road. HADIA Foundation staff and volunteers continued the journey on donkeys and other pack animals, carrying essential supplies across difficult terrain to reach families.

For Amina and families like hers (pictured), the arrival of food and basic non-food assistance meant more than receiving supplies. It was a visible sign that help could reach them even when distance, terrain, and damaged access routes made the journey exceptionally difficult.

The Kunar earthquake response demonstrated the Foundation's commitment to humanitarian access: when the road ends, the mission does not. Through the determination of staff, volunteers, and supporters, HADIA Foundation worked to take assistance to people who might otherwise have remained beyond the reach of emergency support.

Fighting Hunger, One Family at a Time

One of our most important ongoing programs is Food Assistance. Across Afghanistan, many families face daily uncertainty about where their next meal will come from. The situation is particularly difficult for female-headed households, widows, and families living in extreme poverty who often struggle to meet even their most basic food needs.

HADIA Foundation responds by providing monthly food packages to vulnerable households, helping families access essential staples and reducing the risk of hunger. The program focuses on supporting those most at risk, including households with no reliable source of income and families caring for children, elderly relatives, or people with disabilities.

During the holy month of Ramadan, HADIA Foundation expanded its support through a fresh bread initiative delivered in partnership with local bakeries. Families received access to fresh bread each day, helping them maintain a basic source of nourishment during a period when many were struggling to afford even this essential staple.

The food assistance program demonstrates the Foundation's commitment to supporting those facing hardship and hunger. Through the generosity of donors and the dedication of local staff and volunteers, HADIA Foundation continues to provide practical, life-sustaining assistance to vulnerable families, helping ensure that those on the brink of hunger are not left behind.

Restoring Lives and Restoring Sight Through Surgical Care

Across Afghanistan, many families face significant barriers to healthcare, while public hospitals often lack the capacity, resources, or specialist expertise required for critical procedures.

For Lina (top right), a tragic accident at home changed life in an instant. The injuries she sustained required urgent specialist surgery and ongoing medical care which her family could not afford. Without treatment, she faced the prospect of ongoing pain, physical limitations, and a diminished quality of life. Through HADIA Foundation's Surgical Care Program, Lina was able to access the medical intervention she needed, giving her the opportunity to recover and regain her independence.

For her family, the operation represented far more than a medical procedure. It provided hope during a time of uncertainty and relief that their daughter could begin the journey towards healing. Lina's story reflects the experience of many patients supported through the program, where access to timely surgery can transform lives and restore future opportunities.

Beyond supporting children injured through accidents and trauma, HADIA Foundation also provides free cataract operations for people living with preventable blindness and vision impairment. The Foundation further assists patients requiring low-complexity surgical treatment for serious cancers and other life-threatening conditions that may otherwise go untreated due to financial hardship or limited specialist services.

Clean Water Close to Home

For years, families in Kot district, a rural area in eastern Afghanistan relied on distant water sources for their daily needs. The burden often fell on young girls, who spent hours each day walking long distances to collect water and carrying heavy containers back to their homes. This routine not only placed a physical strain on children but also reduced the time available for education, study, and family life.

In response to community requests, our partner SWAN funded the construction of a deep well and community water station, providing a reliable source of clean water for locals. The facility also serves the village mosque, ensuring that both families and worshippers have access to safe water throughout the year.

The impact has been immediate and far-reaching. Families now have clean drinking water close to home, reducing the risk of waterborne diseases and improving overall health and hygiene. Children, particularly girls, no longer need to spend countless hours fetching water, allowing them to focus on school and simply enjoy being children.

What was once a daily struggle has become a lasting community asset that will benefit generations to come. HADIA Foundation extends its sincere gratitude to SWAN for making funding available for this project and to all supporters whose generosity helped turn a community need into a sustainable solution. Their support is helping create healthier families, stronger communities, and brighter futures.

Our supporters

Over the past years we have been astounded by the generosity of the Australian community.

We are so grateful for the ongoing support of all our donors, both individuals and organisations, that enable us to reach those in need.

The Foundation could not deliver on its work without the support of our partners, volunteers, individual and corporate donors, including:
